

# MONSTER MASK INSTRUCTIONS

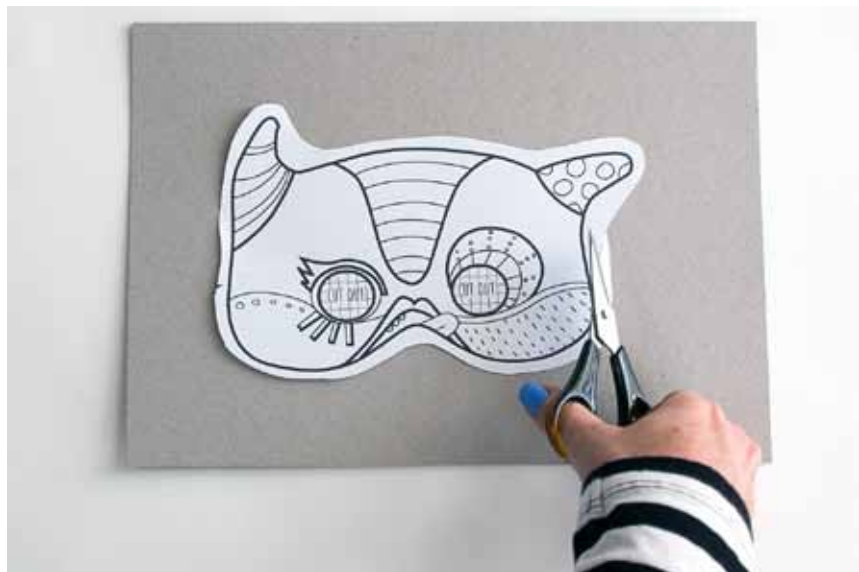

## 1. Gather Materials.

- Sticky Tape
- Scissors
- Elastic
- Hole Punch
- Glue Stick
- Printed Mask
- Thick Card

## 2. Roughly cut around the printed mask.

To eliminate the bulk of white paper you don't need.

## 3. Turn over, right side down and cover, all over, with glue.

**4.** Turn over and firmly press the glued side down onto the card.

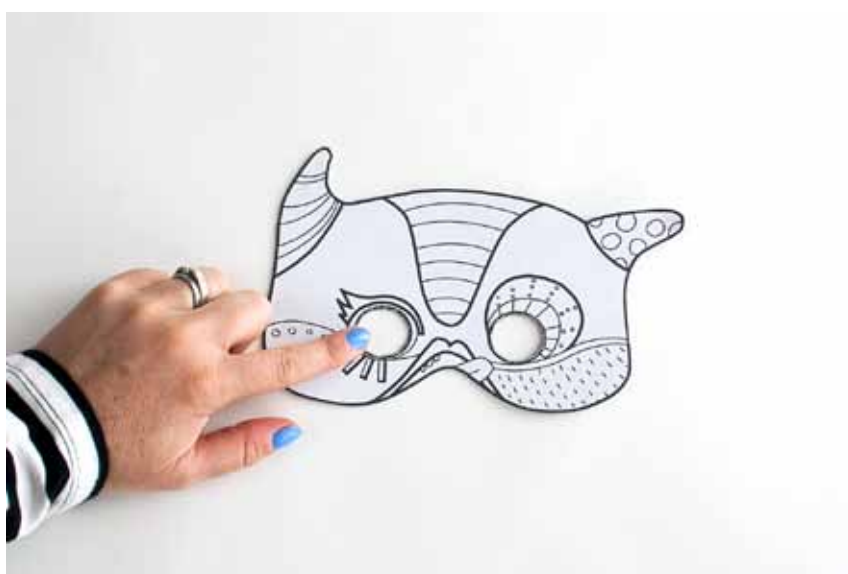

**5.** Very carefully cut around the outside black line of the mask.

**6.** Don't forget to cut out the eyes.

It is easier to punch a hole in the middle of the circle to put your scissors through to start cutting the circles.

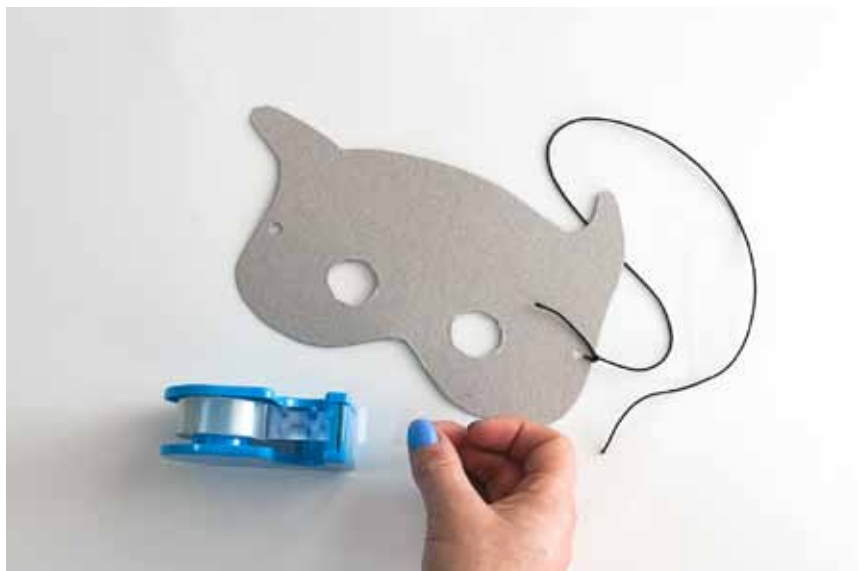

**7.** Punch holes where specified to make holes for the elastic.

If you don't have a hole punch you could VERY carefully use the point of your scissors to make the holes.

**8.** Put elastic through one hole, tie in knot, tape the loose end down with a piece of sticky tape.

**9.** Measure the elastic to fit a head size and put the other end through the second hole. Tie in a knot and secure the loose end with a piece of sticky tape.
